Product Description

Designed by a family doctor, SleepPhones® headphones help you fall asleep faster and stay asleep longer by providing the most comfortable option for you to listen to music to fall asleep. SleepPhones® are the first sleep headphones and highest quality bed-friendly headphones on the market.

SleepPhones® Classic feature superior sound quality with eco-friendly, lead-free electronics. Super thin, high quality speakers are inside of a soft, cozy headband, allowing you to lay on your side comfortably, without earbuds or headphones digging into your head.

SleepPhones® are perfect for light sleepers, people who suffer from 'ringing in the ears' or people with a snoring bed partner. Also great for travel, listening to podcasts, audiobooks, nature sounds, binaural beats, etc.

Benefits:

- Fall asleep faster, stay asleep better and wake up refreshed
- Reduce ambient noise, conversations, traffic sounds and snoring
- No painful ear buds or awkward headphones
- Get a good night's sleep naturally, without medications
- Relieve stress and block out noise by listening to your favorite tunes, soothing meditation sounds, radio, sleep-enhancing rhythms, audiobooks or any other preferred music.

Features:

- Superior sound quality with eco-friendly, lead free electronics
- Compatible with any device that incorporates a standard 1/8th inch (3.5 mm) audio jack
- Flexible 4-foot (48 inch) stereo audio cord
- Removable speakers in a hypoallergenic, machine washable fabric headband
- Pre-shrunk and non-pilling
- Satisfaction guaranteed
